

PHYSICIANS *for* PEACE

BUILDING PEACE AND INTERNATIONAL
FRIENDSHIPS THROUGH MEDICINE

ANNUAL REPORT

2010

Transforming lives one mission at a time.

GIFTS IN KIND *PHYSICIANS for PEACE*

When is a bandage more than fabric to cover a wound? When is a hospital bed more than a temporary place to lay your head? When is a crutch more than an ambulatory aid? A pair of glasses more than just a tool for better vision? When they're used to empower health workers, patients and communities, the resources and equipment that we take for granted profoundly affect health and recovery. Thanks to charitable gifts from

individuals and organizations, Physicians for Peace sends targeted medical equipment and supplies to our partners in underserved regions. With your help, we mobilized millions of dollars of in-kind donations in 2010, supplying our partners with the resources they truly need to better serve their countrymen.
